8 Mobile Procurement Apps

Can help streamline supplier and interdepartmental communications by providing real-time updates on PR, orders and invoices.
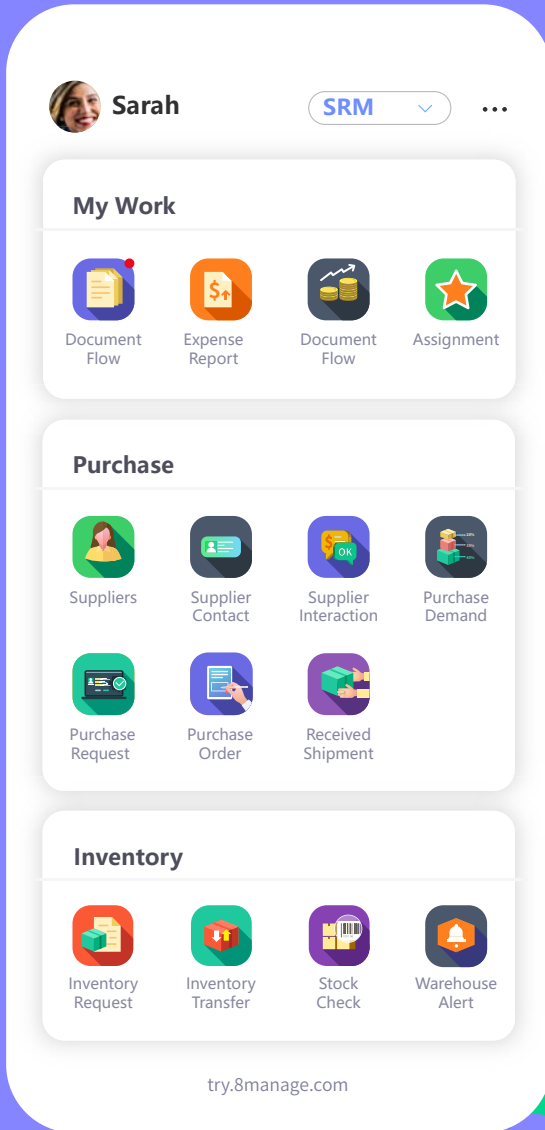

8 Mobile Procurement Apps replace the old method of paper-based procurement,

thus improving transparency. Contract administration and negotiation

are simplified by mobile devices' easy access to essential data.

8 Mobile Procurement Apps increase supply chain functionality and productivity.

They also lead to higher levels of employee efficiency.

The results lead directly to improved overall business efficiency and customer satisfaction.
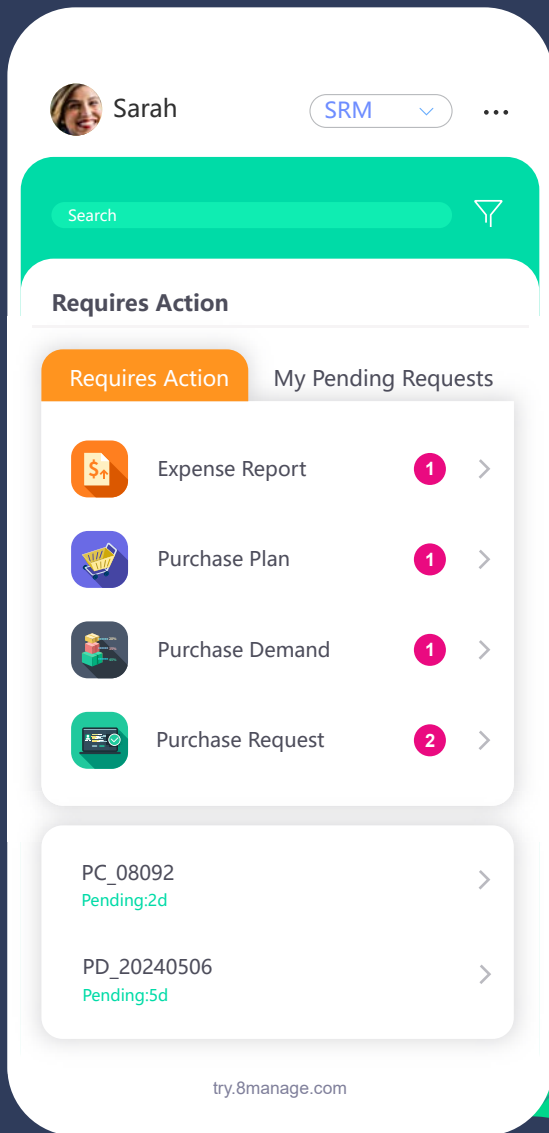

🎱 Mobile Procurement Apps

🎱 Mobile Procurement Apps provide comprehensive and user-friendly purchasing and supplier management features.

Using the mobile apps, users can record basic information of suppliers, submit and approve procurement-related items such as purchase requests and purchase orders at any time and any place, thereby improving the procurement efficiency and reducing the cost of purchasing management.

⑧ Mobile Procurement Apps offer a scientific and rigorous purchasing approval mechanism. Users can set different approval rules and processes for different procurement needs.
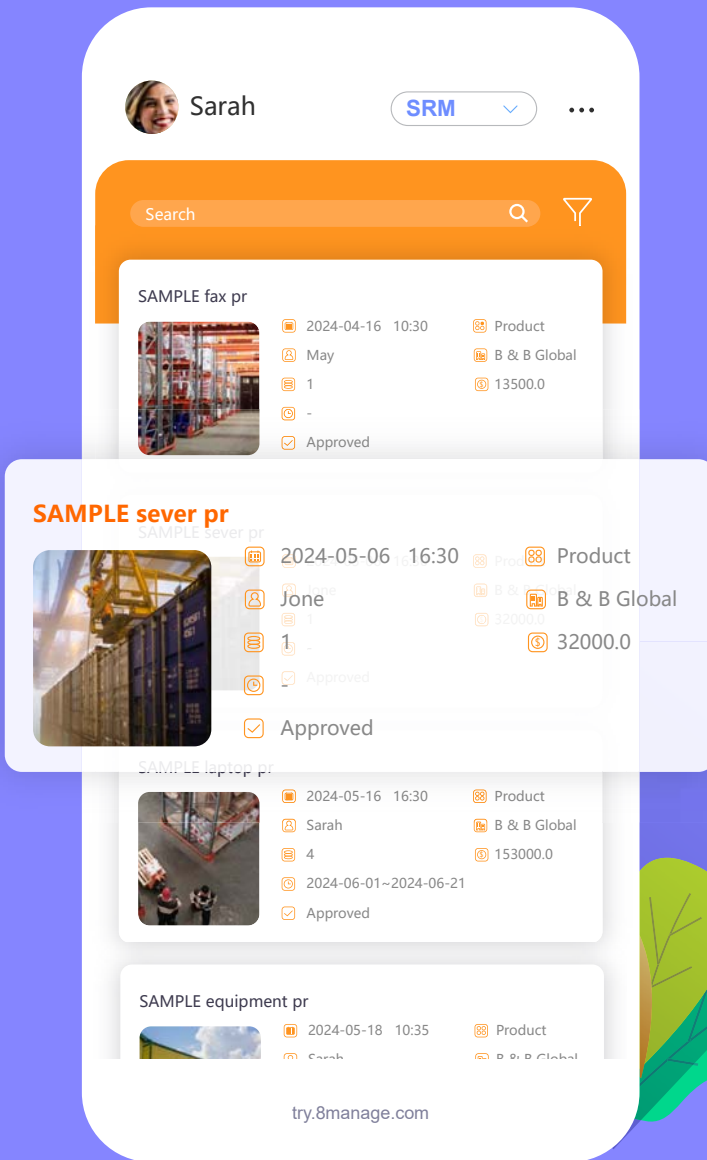

Each approval process can have different approval stages and approvers, and each approval stage can have different approval steps.

Supplier Management

8 Mobile Procurement Apps allow you to enter and check the essential information of suppliers, their contacts and supplier interactions on the phone without the restriction of time and place. Using their search functions, you can quickly find the supplier, contact or interaction that you want.
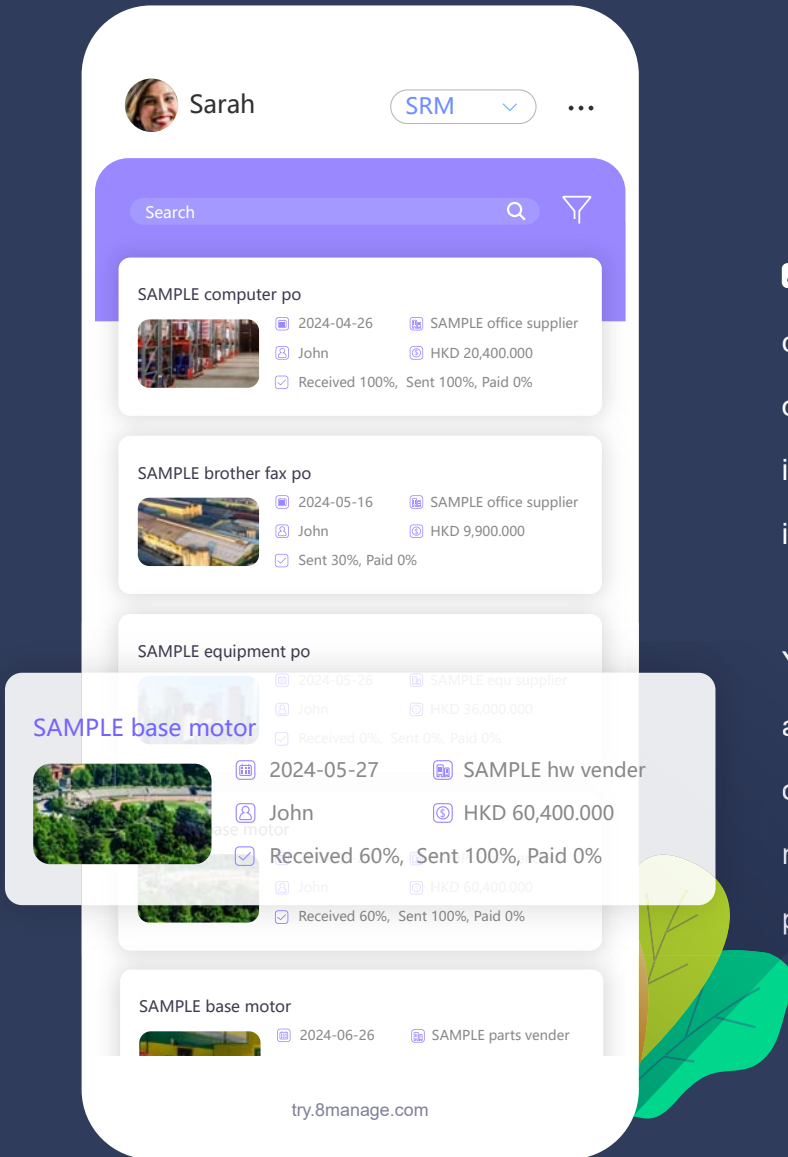

Purchase Request

Whether you're at a tradeshow, a job site, meeting a customer, or just away from your laptop, 8 Procurement Apps allow you to request your purchase or make important procurement approval decisions remotely.

8 Mobile Procurement Apps streamline purchase requisitions and capture and upload documents instantly, gain real-time budget insights, and follow approval workflows – all through a user-friendly mobile app.

8 Mobile Procurement Apps ensure on-the-go approval and budget tracking, driving user adoption while keeping business spend on track.
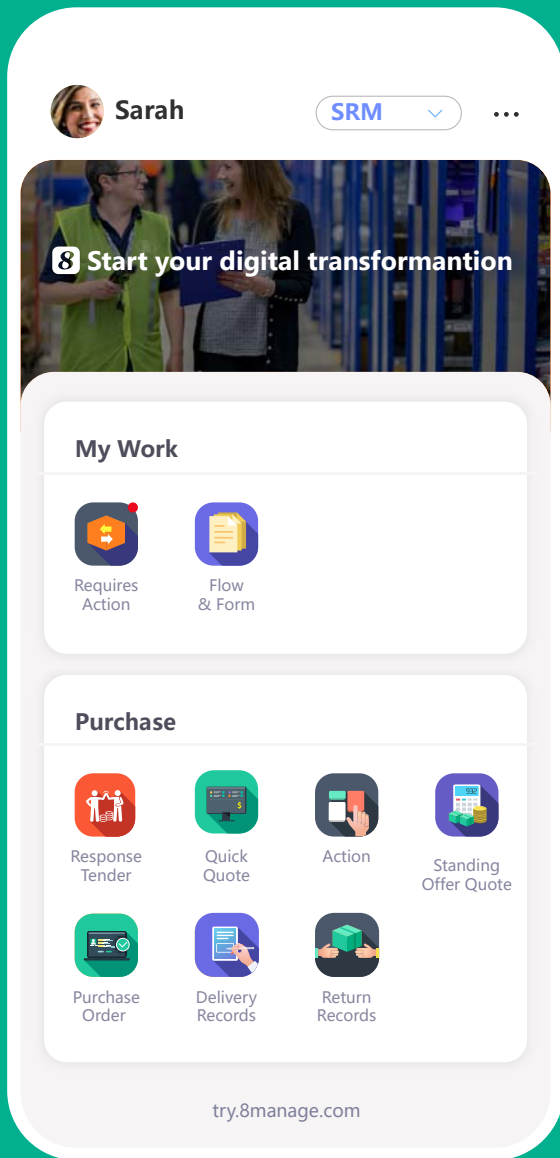

Purchase Order

⑧ Mobile Procurement Apps allow you to create, manage, and search purchase orders to ensure that you get the ordered items on time, at the correct location, and in the required quantity.

You can manually order materials as well as services. From the listing of purchase orders, you can instantaneously see the number of overdue items for each of your purchase orders.

In today's fast-paced business world, modern organizations need agile and efficient purchasing workflows. ⑧ Mobile Procurement Apps enable your teams to review, update and approve purchase orders anywhere and anytime.

Supplier Response

[8] Mobile Procurement Apps allow suppliers to respond to standing offers, quote requests, auctions, unconfirmed and confirmed purchase orders anytime and anywhere.

[8] Mobile Procurement Apps can benefit suppliers by improving supplier relationships, reducing transaction times, and lowering errors. They can also help with decision making and saving on procurement costs.
