8Manage PM Advantage

High professional PM system for business project, technical project, program and portfolio mgt.Real-time reliable information to increase accountability and effectiveness
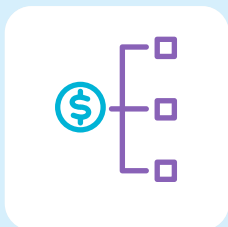

Reliable Project Info

· Similar to using CDM/ATM, the current status is accurate and the past interaction and transaction records are incorruptible.

· Automatically tracks the interactions and changes in every activity and deliverable and generate audit trail.

Connect project and business

· Contract and Project Integrated Mgt.

· Control the contract execution, delivery, cost, revenue and profitability with project.

· One contract can represent one or more projects.

Resources/ Requirements/Cost

· Plan and track resource skills and usage in real-time.

· Requirements communications & changes are managed together.

· Cost management is accurate, integrated and portfolio.

Automatic Warning

· Automatic tracking and reporting of issues and risks.

· Automatically detect the overdue project activities, overspending, overloaded resources and inform the project-related personnel.

Dynamic
Real-time WBS

· Displays a single view of accurate plan & execution info to everyone in real-time..

· Project plan and execution are inseparable (always linked together by the system).

· Any info changes, other relevant info is updated automatically .

Mobile PM,
Increase Efficiency

· Approve projects, track progress anytime and any-where.

· Assign work, submit project progress and allocate resources by phone.

· Focus project members on the most important actions.
